Best Used Car Awards Methodology

CarGurus Used Car Awards nominees were selected from late-model cars originally available for sale in the United States. Vehicle generations that include the 2015 model year were considered in their entirety when evaluating nominees. Nominees were evaluated on criteria including CarGurus user reviews, professional test drive reviews, popularity, availability, and CarGurus' projected 12-year value retention. The model with the highest overall score was determined to be the winner for each category.
