

## Cautionary Note Regarding Forward-Looking Statements

Certain information contained in this presentation, other matters discussed today and answers that may be given in response to questions may include "forward-looking statements." We may, in some cases, use terms such as "anticipates," "believes," "could," "estimates," "expects," "intends," "likely," "may," "might," "plans," "potential," "predicts," "projects," "seeks," "should," "target," "will," "would," or other words that convey uncertainty of future events or outcomes to identify these forward-looking statements. In particular, statements in this presentation regarding: industry trends; our market awareness; our business and growth strategy and our plans to execute on our growth strategy; the growth levers we expect to drive our business; our brand awareness efforts, including investments in audience and brand building; our investments in and ability to drive adoption of new and existing products and their benefits, including revenue growth opportunities; the attractiveness and value proposition of our current offerings and other product opportunities; our ability to maintain existing and acquire new customers; addressable opportunities; our success in international markets; our future financial and business performance, including for the first guarter 2021 as well as other long-term financial targets; the impact of the COVID-19 pandemic on our business and financial results; our belief that the presentation of non-GAAP financial measures and other business metrics is helpful to our investors; and other statements regarding our plans, prospects and expectations, are examples of such forward-looking statements. These forward-looking statements are subject to a number of risks and uncertainties, including, without limitation, risks related to our growth and ability to grow our revenue, our relationships with dealers, competition in the markets in which we operate, market growth, our ability to innovate, our ability to realize benefits from our acquisitions and successfully implement the integration strategies in connection therewith, natural disasters, epidemics or pandemics, like COVID-19 that has negatively impacted our business, our ability to operate in compliance with applicable laws, as well as other risks and uncertainties as may be detailed from time to time in our Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q and other reports we file with the Securities and Exchange Commission. These factors could cause actual results and developments to be materially different from those expressed in or implied by such statements. Forward-looking statements do not quarantee future performance and actual results may differ materially from those projected. The forward-looking statements are made only as of the date of this presentation and we undertake no obligation to update such forward-looking statements to reflect subsequent events or circumstance.

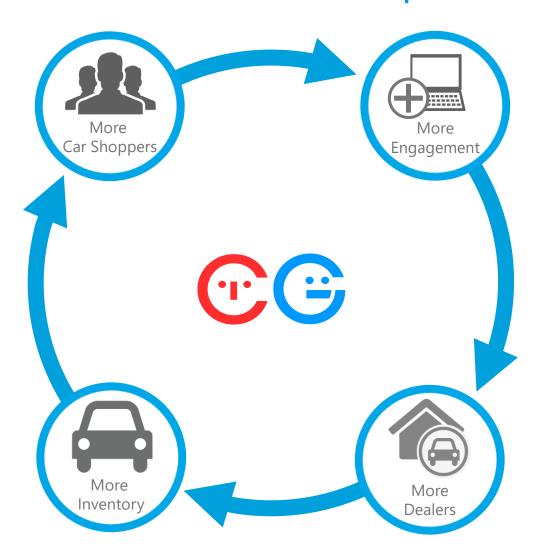

This presentation also contains estimates and other statistical data, including those relating to our industry and the market in which we operate, that we have obtained or derived from internally-prepared studies and surveys, third-party studies, industry publications and reports, as well as other publicly available information prepared by a number of third-party sources. We rely on both internal data and Google Analytics for data relating to our own key business metrics and, for consistency, we rely on Comscore and, as applicable, third party studies for data relating to comparisons with our competitors. Google Analytics, Comscore and applicable third-party studies use different methodologies to derive their data and therefore their data for similar statistics are not comparable. These third-party studies and industry publications and reports generally indicate that they have obtained their information from sources believed to be reliable, but do not guarantee the accuracy and completeness of their information. This information involves a number of assumptions and limitations, and you are cautioned not to give undue weight to these estimates, as there is no assurance that any of them will be reached. Based on our experience, we believe that these third-party studies and industry publications and reports are reliable and that the conclusions contained therein are reasonable. In addition, you are cautioned not to rely on our extrapolations of internally-prepared studies and surveys and/or third-party studies, as these are estimates involving a number of assumptions and limitations, which we are unable to ensure will be reached.

In addition to the financial measures contained in this presentation that are prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP), this presentation includes certain non-GAAP financial measures and other business metrics. The presentation of non-GAAP financial information and other business metrics is not meant to be considered in isolation or as a substitute for the directly comparable financial measures prepared in accordance with GAAP. While our non-GAAP financial measures and other business metrics are an important tool for financial and operational decision-making and for evaluating our own operating results over different periods of time, we urge investors to review the reconciliation of the non-GAAP financial measures to the comparable GAAP financial measure included above it in the the relevant presentation slide or the Appendix to this presentation, as applicable, and not to rely on any single financial measure to evaluate our business.

# CarGurus Generates Faster Inventory Turnover than Other US Marketplaces<sup>1</sup>

A third-party study found that vehicles listed on CarGurus sell 16% faster than
Autotrader and 22% faster than Cars.com.<sup>1</sup>

The same study showed that for inventory listed by paying dealers on CarGurus, adding a second listings site like Cars.com or Autotrader barely moved the needle, reducing average days on market by **only 6%**.<sup>1</sup>

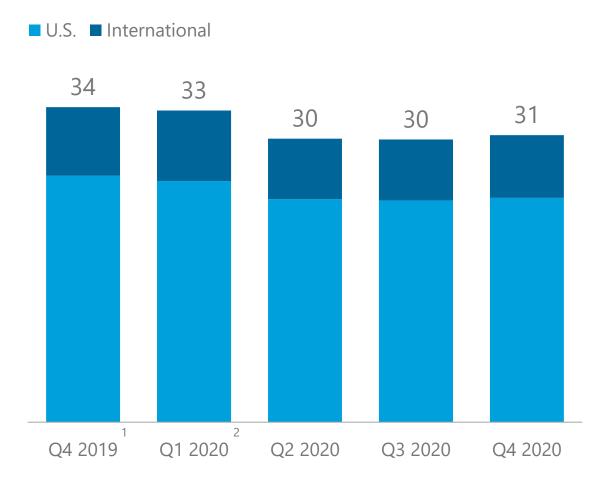

## **Quarterly Paying Dealer Count**

TOTAL PAYING DEALERS (THOUSANDS)

<sup>1.</sup> In our Quarterly Report on Form 10-Q for the quarter ended June 30, 2020, filed with the SEC on August 6, 2020, we announced that we had modified our method for calculating paying dealers to align our data with an enterprise system upgrade (the "Internal System Upgrade") and had replaced our Average Annual Revenue per Subscribing Dealer key metric with Quarterly Average Revenue per Subscribing Dealer ("QARSD"). As a result of the Internal System Upgrade, and to provide consistency in our year-to-year comparisons, we have recast our paying dealer calculation as of December 31, 2019 to reflect the updated calculation methodology. 2. Includes paying dealers from the Autolist website.

### Growing US QARSD Through Three Levers

Grow Connection and Lead Volume

Increase Adoption of New Products Unit Pricing and Product Packaging

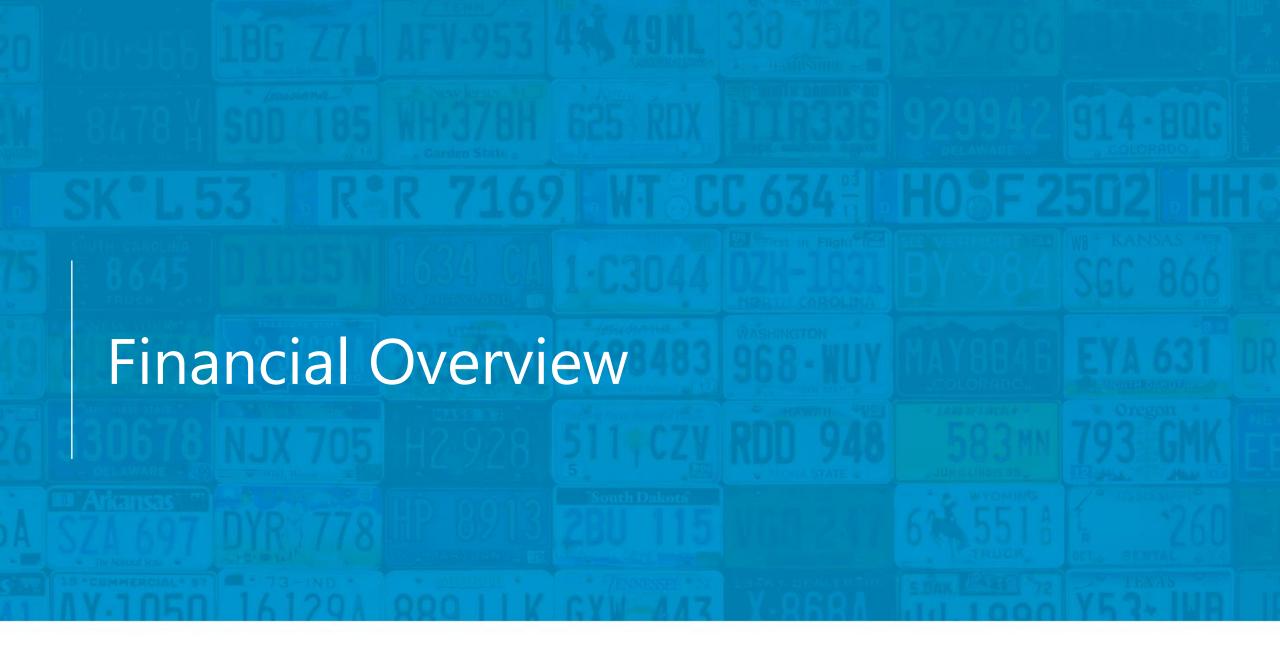

### We Have Grown Connection and Lead Volume to Support QARSD

<sup>1.</sup> For the three months ended June 30, 2020, utilizing non-GAAP, pro forma U.S. marketplace subscription revenue for such quarter instead of GAAP U.S. marketplace subscription revenue, the U.S. QARSD would have been approximately \$4,825, which is a non-GAAP measure. Please see the Appendix to this presentation for a reconciliation of non-GAAP, pro forma U.S. marketplace subscription revenue to GAAP U.S. marketplace subscription revenue.

### First Quarter Outlook<sup>1</sup>

|                             | 1Q21 <sup>2</sup>   |
|-----------------------------|---------------------|
| Revenue                     | \$156.0M - \$160.0M |
| Non-GAAP Operating Income   | \$33.5M - \$36.5M   |
| Non-GAAP Earnings Per Share | \$0.21 - \$0.23     |

Guidance for the first quarter 2021 includes the impact of known customer billings relief for such period, but excludes the effects of significant COVID-19 resurgences, including the reintroduction of lockdowns and/or a slowed pace of recovery, that result in dealers and consumers materially changing their recent market behaviors or that cause us to continue to implement or otherwise enact additional measures to assist dealers, such as offering further fee reductions or waivers. The assumptions that are built into quidance for our pace of paid dealer acquisition, churn, and expansion activity for the relevant period are based off of recent market behaviors. Guidance does not include any potential impact of foreign currency exchange gains or losses.

CarGurus has not reconciled its non-GAAP operating income guidance to GAAP operating income, or its non-GAAP EPS guidance to GAAP EPS, because stock-based compensation, amortization of intangible assets, acquisition-related expenses, and restructuring expenses, the reconciling items between such GAAP and non-GAAP financial measures, cannot be reasonably predicted due to, as applicable, the timing, amount, valuation and number of future employee equity awards, and the uncertainty relating to the timing, frequency and effect of acquisitions and restructurings and the significance of the resulting acquisition-related or restructuring expenses, and therefore cannot be determined without unreasonable effort. For more information regarding the non-GAAP financial measures discussed in this release, please see the reconciliations of GAAP financial measures and Other Business Metrics" below.

<sup>1.</sup> Guidance provided by CarGurus in its earnings press release dated February 11, 2021, furnished as Exhibit 99.1 to CarGurus' Current Report on Form 8-K filed with the SEC on February 11, 2021.

<sup>2.</sup> The first quarter 2021 non-GAAP earnings per share calculation assumes 124 million diluted weighted-average common shares outstanding.

## Long-Term Target Model Progression Since IPO

| U.S. Segment GAAP Operating<br>Margin | 14%  | 13%               | 13%               | 23%  | 27%     |                     |

<sup>1.</sup> Reflects adoption and impact of Accounting Standards Certification Topic 606, Revenue from Contracts with Customers.

<sup>2.</sup> Please see the Appendix to this presentation for a reconciliation of this non-GAAP measure.

### Appendix: Reconciliation of Q2 2020 Revenue to Non-GAAP, Pro Forma Revenue

| (\$ MILLIONS)                                              | Q2 2020 |
|------------------------------------------------------------|---------|
| Total GAAP Revenue                                         | \$94.7  |
| GAAP US Marketplace Subscription<br>Revenue                | \$75.5  |
| Impact of Fee Reductions                                   | \$44.0  |
| Non-GAAP US Marketplace Subscription Revenue               | \$119.5 |
| GAAP Int'l Marketplace Subscription<br>Revenue             | \$4.5   |
| Impact of Fee Reductions                                   | \$2.7   |
| Non-GAAP Int'l Marketplace Subscription Revenue            | \$7.2   |
| Total Non-GAAP, Pro-Forma Marketplace Subscription Revenue | \$126.7 |
| GAAP Total Advertising and Other Revenue                   | \$14.8  |
| Total Non-GAAP, Pro Forma Revenue                          | \$141.5 |

Note: We define total non-GAAP, pro forma revenue as the sum of (i) non-GAAP, pro forma marketplace subscription revenue and (ii) GAAP advertising and other revenue. We define non-GAAP, pro forma marketplace subscription revenue as GAAP marketplace subscription revenue, adjusted to exclude the impact of fee reductions provided during the second quarter of 2020 and which assumes that we had no incremental churn other than realized in such quarter, such that all reported paying dealers retained their subscriptions at their full subscription level. We believe this non-GAAP financial measure provides useful information that will allow investors to compare our period-to-period revenue trends.

### Appendix: Reconciliation of Net Income to Adjusted EBITDA

| (\$ MILLIONS)                                | 2017   | 2018   | 2019   | 2020    | Q4 2020 |
|----------------------------------------------|--------|--------|--------|---------|---------|
| Net Income                                   | \$13.2 | \$65.2 | \$42.1 | \$77.6  | \$25.2  |
| Depreciation and Amortization                | 3.8    | 5.0    | 7.8    | 11.3    | 2.6     |
| Stock-based Compensation Expense             | 5.0    | 20.8   | 34.3   | 45.3    | 10.7    |
| Acquisition-related Expenses                 | -      | 0.6    | 0.5    | 2.9     | 1.9     |
| Restructuring Expenses                       | -      | -      | -      | 3.5     | -       |
| Other (Income) expense, Net                  | (0.6)  | (2.3)  | (4.4)  | (1.4)   | 0.1     |
| Provision for (Benefit from) Income<br>Taxes | 2.6    | (39.7) | (3.4)  | 21.6    | 8.2     |
| Adjusted EBITDA                              | \$24.1 | \$49.7 | \$77.0 | \$160.8 | \$48.6  |

Note: We define Adjusted EBITDA as GAAP net income, adjusted to exclude: depreciation and amortization, stock-based compensation expense, acquisition-related expenses, restructuring expenses, other (income) expense, net, and the provision for (benefit from) income taxes. We have presented Adjusted EBITDA because it is a key measure used by our management and board of directors to understand and evaluate our operating performance, generate future operating plans, and make strategic decisions regarding the allocation of capital. In particular, we believe that the exclusion of certain items in calculating Adjusted EBITDA can produce a useful measure for period-to-period comparisons of our business.
