Cautionary Note Regarding Forward-Looking Statements

Certain information contained in this presentation, other matters discussed today and answers that may be given in response to questions may include “forward-looking statements.” We may, in some cases, use terms such as “anticipates,” “believes,” “could,” “estimates,” “expects,” “intends,” “likely,” “may,” “might,” “plans,” “potential,” “predicts,” “projects,” “seeks,” “should,” “target,” “will,” “would,” or other words that convey uncertainty of future events or outcomes to identify these forward-looking statements. In particular, statements in this presentation regarding: industry trends; our market awareness; addressable opportunities, including in ancillary and international markets; our ability to grow the size and engagement of our consumer audience; the attractiveness and value proposition of our products and platform, including current offerings and other product opportunities; our ability to grow our paying dealer base and increase revenue per subscribing dealer; our success in international markets; and our potential future results, including long-term financial targets, are examples of such forward-looking statements. These forward-looking statements are subject to a number of risks and uncertainties, including, without limitation, risks related to our rapid growth and ability to sustain our revenue growth rate, our relationships with dealers, new product development, competition in the markets in which we operate, market growth, our ability to expand effectively into new markets, our ability to realize benefits from our acquisition of PistonHeads and successfully implement the integration strategies in connection therewith, our sales and marketing strategies, our capital resources and operating performance, our ability to operate in compliance with applicable laws, as well as other risks and uncertainties that we have detailed in the “Risk Factors” section of our Quarterly Report on Form 10-Q, filed on May 9, 2019 with the U.S. Securities and Exchange Commission. These factors could cause actual results and developments to be materially different from those expressed in or implied by such statements. Forward-looking statements do not guarantee future performance and actual results may differ materially from those projected. The forward-looking statements are made only as of the date of this presentation and we undertake no obligation to update such forward-looking statements to reflect subsequent events or circumstance.

This presentation also contains estimates and other statistical data, including those relating to our industry and the market in which we operate, that we have obtained or derived from industry publications and reports, including reports from Comscore, Borrell Associates, and publicly available information. We rely on Google Analytics for data relating to our own key business metrics and, for consistency, we rely on Comscore for all data relating to comparisons with our competitors. Google Analytics and Comscore use different methodologies to derive their data and therefore their data for similar statistics are not comparable. These industry publications and reports generally indicate that they have obtained their information from sources believed to be reliable, but do not guarantee the accuracy and completeness of their information. This information involves a number of assumptions and limitations, and you are cautioned not to give undue weight to these estimates, as there is no assurance that any of them will be reached. Based on our industry experience, we believe that the publications and reports are reliable and that the conclusions contained in the publications and reports are reasonable.
